DIRECTIONS FOR MEASURING STORE AWNINGS.

Fill out this blank order according to your wants, tear it out and return it to us for samples and prices,

Name,.....

Address,.....

Do you want a new frame?
What do the sockets fasten to wood, iron, brick or stone?
Are the columns in line?
If you have an old frame what is it made of?
Do you fasten the top of your awning to the building with a head-rod, screw-eyes or hooks?
How many projection bars has your frame?
Which side of the door should the downhaul be?
Are any jogs needed in the top of the awning for ornaments on the posts?
Does the top of awning fasten vertically over the place where the sockets fasten?

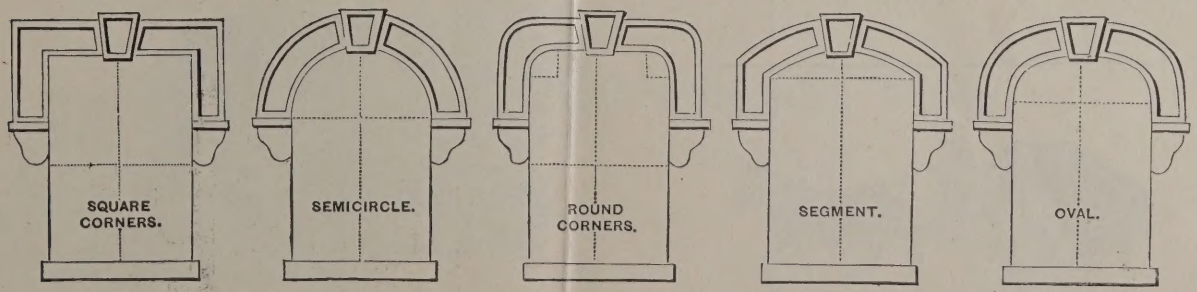
If none of these below are wanted, tear this off and keep it if you wish.

WINDOW AND DOOR AWNINGS FOR OFFICES, RESIDENCES &C



In ordering these Awnings, the measure to be taken on the door or window *frames*, not on the brick work, and in all cases state the shape of window, giving name of shape from our diagrams.

In measuring for Semi-Circles, Ovals and Segments, send height from center of window to sill, width of window and height of curve—see dotted line on cut. For round corners, height, width and square of corner, measured as shown on dotted line on cut. For square tops height and width of window only. State if 1st, 2d or 3d story.

Send for Samples of material with measures, when prices will be quoted. State if frames are wanted.
